British Modern International School
'The Gateway to Quality Education'

British Modern International School (**BMIS**) provides a high quality academic and extracurricular programme for the local and international community of Qatar. We believe in education as a lifelong process, in developing a love of learning and in the attainment of excellence. We follow British Curriculum.

BMIS previously **International British School** was founded in 2008 by Dr. Shamila Ahmed an Educationalist and Mr. Shaji Ali an Industrialist. From its very small beginnings 13 years ago it has now grown into one of the best schools in Qatar with 600 plus students on role.

In 2017 the school moved to its current campus in Al Messila. The school continues to thrive, expanding and developing its excellent specialist facilities, which include well equipped Science/ICT laboratories, and a large sports hall. Classrooms are equipped with Smart Boards/projectors and the school has a dedicated educational platform enabling interactive virtual classrooms.

The school is led and managed by qualified and experienced professionals and it strives to maintain the highest standards, supporting the Arabic culture and international context. Children are taught in Key Stages from Foundation Stage and KS1 through to KS3. The school prides itself in ensuring that each student at **BMIS** receives the best international practice in education and learning. Moreover, we give our students exposure to international competitions, like English/Math/Science/Cyber Olympiads and other Global exams.

The student teacher ratio is approximately 12:1. We have 35 different nationalities represented in the student body and a diverse international teaching faculty. We measure the quality of our school climate by the level of meaningful and empowering learning experiences that are beneficial to everyone's well-being. A warm, comfortable and supportive learning climate enables us to make a positive difference in our lives and the lives of others.

Our Today ... Your Tomorrow....
